

ACT FOR ARMENIA

*remembering our past
inspiring our future*

Act For Armenia (formerly Fast For Armenia) aims to secure a brighter tomorrow for Armenia by educating the youth of today. Proceeds are used to empower schoolchildren in Armenia's border villages with textbooks, maps, supplies and other learning tools, in addition to funding critical school improvements.

The organization facilitates a healthier educational atmosphere conducive to cultivating the great, untapped intellectual potential of the future Armenian generation.

AFA Sponsored Schools

Act For Armenia currently provides aid for children in 6 village schools, delivering essential learning materials and improving vital school facilities.

Since its conception by Armenian students at Stanford University, Act For Armenia has involved Armenian youth at Harvard, U.C. Berkeley and other colleges, as well as St. Ignatius High School in San Francisco and Crescenza Valley High School in Los Angeles.

In the U.S. the Armenian Engineers and Scientists of America (AES) helps manage logistics and enables tax-deductible donations.

In Armenia the National Foundation for Science and Advanced Technologies (NFSAT) carries out the purchase and distribution of school materials, ensuring that every dollar reaches its proper destination.

Through our partnership with these two reputable organizations and the support of the Armenian community, Act For Armenia continues its quest to equip the students of Armenia with the tools necessary to build a brighter future.
